A limited amount of people should be involved in the child's (active day). Parents prefer consistency, same caregiver, the same home and a strong rapport with the same person in the home. Usually the caregiver (not with their family members)
   Only one person is in charge of the children. **The provider only.**

5. Every adult living in the home must complete a medical form. Adult forms are completed by the doctor with Doctor's stamp. (Doctor completes Agency form).

7. Adults over 18 years of age and persons ordinarily resident on the premises must sign a Behavior Management form; stating that they are not to engage in **ANY** Prohibited Practices. Agency forms are completed and signed annually.

8. The caregiver's home must be approved by the Agency first. (Providers must comply with all Agency requirements).
   a. You must have a clean and safe home complete with:
   b. Smoke detectors on each floor (if electric, then you will need one battery operated detector as back up)
